Design Entrepreneur Scholarship
Dapper Fox Design Agency | 2020

Crabby Beach Design Scholarship
University of Washington | 2019

Senior UX Designer | Breville | breville.com
January 2023 – Present

Leading the creation of a unified design system across web,
app, and appliance platforms. Partnering with cross-functional
teams to build scalable components, maintain consistency,
and guide system adoption. Driving AI initiatives and launching
connected experiences that bridge hardware and software.

UX Designer | ON | madebyon.com
June 2022 – May 2023

Designed and developed websites from concept through
launch for a range of clients including global brands like North
Six and various startups. Created wireframes, prototypes, and
final builds while ensuring accessibility and performance.
Collaborated closely with creative directors and engineers to
refine interactions, optimize usability, and maintain fidelity.

Design Researcher | Studio Tilt | studiotilt.design
September 2020 – June 2022

Researched how people interact with connected devices in
the home, translating insights into three speculative product
concepts. Co-authored "On the Making of Alternative Data
Encounters: The Odd Interpreters," published in CHI '23:
Conference on Human Factors in Computing Systems.

Freelance Designer | Various Clients
June 2019 – May 2024

Collaborated with startups and brands to create cohesive
identities and digital experiences. Led projects including
branding, packaging, and web design, managing production
from concept through launch to ensure quality delivery.
